Cognitive bias modification is a computerised brain-training program that trains people to repeatedly “avoid” alcohol-related cues, and to “approach” neutral or positive ones.

How a simple brain training program could help you stay ...

A training program can help to convince new staff members of the value of the organization's philosophy and methods. It enlists them as "regulars" in the organization by giving them a vocabulary and way of looking at their work similar to those of others in the organization. It shortens the time needed for them to become competent at their jobs.

Section 7. Developing Training Programs for Staff

Beyond Diversity Training – What Really Works. Diversity training is far from the only way a corporation can try to improve the hiring and promotion of more women and people of color. In their research, Kaley and Dobbin found that two other methods are highly effective: targeted recruitment efforts and formal mentoring programs.
