Once hailed by John Osborne as 'the greatest actor since Brando', latterly known as a ruined genius whose unpredictable, hellraising behaviour was legendary, Nicol Williamson always went his own way. Openly dismissive of 'technical' actors, or others who played The Bard as if 'their finger was up their arse', Williamson tore up the rule book to deliver a fast-talking canon of Shakespearean heroes, with portrayals marked by gut-wrenching passion. According to one co-star, Williamson was like a tornado on stage - 'he felt he was paddling for his life'. Fiercely uncompromising, choosy about the roles he accepted, contemptuous of the 'suits' who made money from artists, and a perfectionist who never accepted second best from himself or others, Nicol sometimes alienated those around him. But even his detractors still acknowledge his brilliance. After an extraordinary career on both stage and screen, Williamson was burnt out as an actor by the age of 60. Yet, as Gabriel Hershman explains in this authorised biography, a premature end was perhaps inevitable for an actor who always went the extra mile in every performance.

Henry Cooper is best remembered for the night he nearly changed boxing history - 19 July 1963. Fighting an up-and-coming boxer by the name of Cassius Clay, later to become Muhammad Ali, his famous left hook (known as 'Henry's Hammer') sent Clay crashing onto the canvas. Arguably Britain's greatest ever heavyweight fighter, Cooper won 40 of his 55 professional bouts, beating most of the true boxing greats along the way. His story is littered with famous names - Rocky Marciano, Floyd Patterson, Sonny Liston, Joe Louis, Sugar Ray Robinson, and, of course, Ali. But Cooper's retirement from the sport did not spell the end of his time in the public eye, as he embarked on a successful media career. Disaster struck in the 1990s, however, when his innocent involvement in a scandal surrounding insurance giants Lloyds of London led to him having to sell his unique collection of three Lonsdale belts to pay his bills. He was knighted in the millennium New Year's honours list for his services to boxing, and his death in May 2011 sparked a huge outpouring of tributes from the sporting community. This is the biography of an intriguing character, a great fighter and a true sporting legend.

Richard Stephens became the focus of international media attention in 2009 for his research on the psychological benefits of swearing as a response to pain. Now, fresh from winning the 2014 Wellcome Trust Science Writing Prize, Richard's first popular science book uncovers other pieces of surprising and occasionally bizarre scientific enquiry showing that what we at first perceive as bad can, in fact, be good. More pub conversation than science book, Richard's writing style is very accessible - both engaging and humorous. Think wasting time is bad? Not always! Research shows that taking time out can help you solve difficult problems. And if you can't be bothered tidying up, well fine, research shows that people are more creative in a messy environment. Swearing is rude but research shows that in some situations it can be a form of politeness. Swearing can also be used as a tool of persuasion. *Black Sheep* casts a slant on a range of human experiences from life to death, sex to romance, from speed thrills to halting boredom and from drinking alcohol (in moderation) to headily excessive bad language. This is a fascinating left-field tour of the world of psychological science. Get ready for the many hidden benefits of being bad that you really won't have seen coming.

This is an ambitious and fascinating analysis of early twentieth-century English literature from Kipling, Conrad, Lawrence and Forster through figures like Joyce and Woolf to writers such as Evelyn Waugh. There are chapters on the younger writers of the age as well as the more popular minor writers like Buchan and Dornford Yates.

Nelson Mandela, who emerged from twenty-six years of political imprisonment to lead South Africa out of apartheid and into democracy, is perhaps the world's most admired leader, a man whose life has been led with exemplary courage and inspired conviction. Now Anthony Sampson, who has known Mandela since 1951 and has been a close observer of South Africa's political life for the last fifty years, has produced the first authorized biography, the most informed and comprehensive portrait to date of a man whose dazzling image has been difficult to penetrate. With unprecedented access to Mandela's private papers (including his prison memoir, long thought to have been lost), meticulous research, and hundreds of interviews--from Mandela himself to prison warders on Robben Island, from Walter Sisulu and Oliver Tambo to Winnie Mandela and F. W. de Klerk, and many others intimately connected to Mandela's story--Sampson has composed an enlightening and necessary story of the man behind the myth.

"They've said some crazy things about me over the years. I mean, okay: 'He bit the head off a bat.' Yes. 'He bit the head off a dove.' Yes. But then you hear things like, 'Ozzy went to the show last night, but he wouldn't perform until he'd killed fifteen puppies . . .' Now me, kill fifteen puppies? I love puppies. I've got eighteen of the f**king things at home. I've killed a few cows in my time, mind you. And the chickens. I shot the chickens in my house that night. It haunts me, all this crazy stuff. Every day of my life has been an event. I took lethal combinations of booze and drugs for thirty f**king years. I survived a direct hit by a plane,

suicidal overdoses, STDs. I've been accused of attempted murder. Then I almost died while riding over a bump on a quad bike at f**king two miles per hour. People ask me how come I'm still alive, and I don't know what to say. When I was growing up, if you'd have put me up against a wall with the other kids from my street and asked me which one of us was gonna make it to the age of sixty, which one of us would end up with five kids and four grandkids and houses in Buckinghamshire and Beverly Hills, I wouldn't have put money on me, no f**king way. But here I am: ready to tell my story, in my own words, for the first time. A lot of it ain't gonna be pretty. I've done some bad things in my time. I've always been drawn to the dark side, me. But I ain't the devil. I'm just John Osbourne: a working-class kid from Aston, who quit his job in the factory and went looking for a good time."

Cecil Beaton was one of Britain's greatest cultural icons - not just as a photographer capturing some of the most celebrated portraits of the 20th century but also as designer of the iconic sets and costumes for the films *My Fair Lady* and *Gigi*. In 1980, Beaton personally chose Hugo Vickers to be his biographer, entrusting him with his diaries and the entire body of letters he had written - both personally and professionally - over the course of his life. Drawing on five years of intensive research and interviews with the likes of Audrey Hepburn, Truman Capote, Princess Grace of Monaco and Sir John Gielgud, Vickers' biography was an instant bestseller upon its publication in 1985. Exploring Beaton's metamorphosis from being the child of a staid middle-class family to an international figure mingling with the glittering stars of his age, the biography also details his great love for Greta Garbo and reveals his private sense of failure that the success he always wanted - as a playwright - eluded him. Republished in a new paperback edition in time for *Bright Young Things*, a major exhibition at the National Portrait Gallery in 2020, Cecil Beaton is the definitive and authorised biography of one of the world's most fascinating, famous and admired photographers.

The first ever biography of the late Ian Hendry tells the story of a great actor destroyed by his own demons. The original star of *The Avengers*, Ian went on to give iconic performances in films such as *Live Now Pay Later*, *The Hill* and *Get Carter* and TV series such as *The Lotus Eaters*. Hailed by John Nettles as a ruined genius and by Brian Clemens as Britain's greatest actor, this is a touching story of an outstandingly talented star dogged by tragedy.

More than three decades after her election to Parliament, Diane Abbott is still racking up firsts. The first black woman elected to Parliament, she also recently became the first black person to represent their party at PMQs. Based on interviews with her colleagues, her political opponents and friends from school and university, as well as extensive archival research, *Diane Abbott: The Authorised Biography* traces Abbott 's path from London, via Cambridge University, through the media and radical politics into Parliament, and then to the top of Jeremy Corbyn 's shadow Cabinet.
