An essential toolkit for language teachers who need to design language courses for working professionals, vocational schools, undergraduate and graduate students. Needs Analysis for Language Course Design is a handbook for those who prepare and teach courses in ESP. The book shows the reader how needs analysis can be used to create a detailed profile of the professional learner and how this profile can then be used to tailor make a course in language and communication for working professionals and for those studying towards a professional or vocational qualification.

An integrated four-skills, American English course for adults and young adults. Four Corners Second Edition Level 1 (CEFR A1) combines effective, communicative methodology with a practical, 'can-do' approach, giving students the language they need to communicate with confidence. Clear learning outcomes and 'can-do' statements for every lesson, linked to the Common European Framework of Reference (CEFR), help teachers and their students measure the progress being made. This is the printed Level 1 Workbook A that complements the Level 1 Student's Book A, and consists of the first six units (1-6). It can be used in class or for homework, and provides students with additional vocabulary, grammar, functional language and reading practice.

How to rewire your brain to improve virtually every aspect of your life-based on the latest research in neuroscience and psychology on neuroplasticity and evidence-based practices Not long ago, it was thought that the brain you were born with was the brain you would die with, and that the brain cells you had at birth were the most you would ever possess. Your brain was thought to be "hardwired" to function in predetermined ways. It turns out that's not true. Your brain is not hardwired, it's "softwired" by experience. This book shows you how you can rewire parts of the brain to feel more positive about your life, remain calm during stressful times, and improve your social relationships. Written by a leader in the field of Brain-Based Therapy, it teaches you how to activate the parts of your brain that have been underactivated and calm down those areas that have been hyperactivated so that you feel positive about your life and remain calm during stressful times. You will also learn to improve your memory, boost your mood, have better relationships, and get a good night sleep. Reveals how cutting-edge developments in neuroscience, and evidence-based practices can be used to improve your everyday life Other titles by Dr. Arden include: Brain-Based Therapy-Adult, Brain-Based Therapy-Child, Improving Your Memory For Dummies and Heal Your Anxiety Workbook Dr. Arden is a leader in integrating the new developments in neuroscience with psychotherapy and Director of Training in Mental Health for Kaiser Permanente for the Northern California Region Explaining exciting new developments in neuroscience and their applications to daily living, Rewire Your Brain will guide you through the process of changing your brain so you can change your life and be free of self-imposed limitations.

Presents a cutting edge overview of tackling and adapting to climate change, written by a lead member of the IPCC.
