Trapped charge dating is a commonly used chronological tool in Earth Sciences and Archaeology. The two principle methods are luminescence dating and electron spin resonance. Both are based on stored energy produced by the absorption of natural radioactivity in common minerals such as quartz and feldspars, and in some biological materials such as tooth enamel. Methodological developments in the last 20 years have substantially increased the accuracy and precision of these methods. This compilation offers a taste of the recent research into both method and applications.

First published in paperback by UNM Press in 1976, *The Way to Rainy Mountain* has sold over 200,000 copies. "The paperback edition of *The Way to Rainy Mountain* was first published twenty-five years ago. One should not be surprised, I suppose, that it has remained vital, and immediate, for that is the nature of story. And this is particularly true of the oral tradition, which exists in a dimension of timelessness. I was first told these stories by my father when I was a child. I do not know how long they had existed before I heard them. They seem to proceed from a place of origin as old as the earth. "The stories in *The Way to Rainy Mountain* are told in three voices. The first voice is the voice of my father, the ancestral voice, and the voice of the Kiowa oral tradition. The second is the voice of historical commentary. And the third is that of personal reminiscence, my own voice. There is a turning and returning of myth, history, and memoir throughout, a narrative wheel that is as sacred as language itself."--from the new Preface

Washington's rowdy lumber camps were no place for an innocent young beauty. And when lovely Rachel McKinnon caught the eye of Jonas Wilkes, she was truly in dire straits. Wilkes owned the lumber empire, the town, the people -- and now he wanted Rachel. Her only hope was the town's darkly handsome doctor, Griffin Fletcher. In a promise to her dying mother, Fletcher had reluctantly promised to protect Rachel from harm. But the smoldering enmity he felt for Wilkes would erupt in passionate conflicts...for the young doctor, who had forsworn any chance of loving again, was now desperately in love with his ward, and she with him.
