From the author of The Same Embrace: A “lively and illuminating” novel that explores a little-known chapter of World War I history (The Washington Post Book World). Frieda Mintz refused her mother’s plan to marry her off to an older, wealthy man. Now she’s determined to make her own way in the world—and find love on her own terms. Earning her keep in a Boston department store, she spends her nights in the dance halls, intoxicated by her newfound freedom and the patriotic fervor of the day. That is, until her soldier beau reports her as his last sexual contact, sweeping her up in the government’s wartime crusade against venereal disease. Soon, Frieda is quarantined in a detention center, forced into manual labor, and subjected to questionable cures. But she finds comfort among those around her, including an incorrigible woman of the night and a sympathetic social worker, as they all seek to build a new kind of independence. At once a horrifying exposé of a dark period in US history and an unexpectedly hopeful story of desire, identity, and righteousness, Charity Girl is a stunningly researched and expertly crafted work of literature, guaranteed to enrapture even as it enrages. “Lively and illuminating . . . marrying the facts of history with the details that make a fictional life come alive.” —Anita Shreve, The Washington Post Book World “A lively, emotion-laden novel of an irrepressible young woman’s punishment for rebelling against upbringing and society.” —The Philadelphia Inquirer “Expect to be drawn into this absorbing page-turner.” —USA Today

Having a baby to save a marriage—it’s the oldest of clichés. But what if the marriage at risk is a gay one, and having a baby involves a surrogate mother? Pat Faunce is a faltering romantic, a former poetry major who now writes textbooks. A decade into his relationship with Stu, an airline pilot from a fraught Jewish family, he fears he’s losing Stu to other men—and losing himself in their “no rules” arrangement. Yearning for a baby and a deeper commitment, he pressures Stu to move from Manhattan to Cape Cod, to the cottage where Pat spent boyhood summers. As they struggle to adjust to their new life, they enlist a surrogate: Debora, a charismatic Brazilian immigrant, married to Danny, an American carpenter. Gradually, Pat and Debora bond, drawn together by the logistics of getting pregnant and away from their spouses. Pat gets caught between loyalties—to Stu and his family, to Debora, to his own potent desires—and wonders: is he fit to be a father? In one of the first novels to explore the experience of gay men seeking a child through surrogacy, Michael Lowenthal writes passionately about marriages and mistakes, loyalty and betrayal, and about how our drive to create families can complicate the ones we already have. The Paternity Test is a provocative look at the new “family values.”

A fiercely honest exploration of the risks and rewards of contemporary relationships--and hookups--Sex with Strangers embraces the dizzying power of attraction across the spectrum of passion and infatuation. In this fearless collection, lust and loneliness drive a diverse cast of queer and straight characters into sometimes precarious entanglements. Recognizing that any partner is unknowable on some level, Michael Lowenthal writes about how intimacy can make strangers of us all. A newly ordained priest struggles with guilt and longing when he runs into his ex-girlfriend. A woman weighs the cost of protecting her daughter from a man they both adore. A teenage busboy has a jolting brush with a famous musician. A young man tries to salvage a long-distance relationship while caring for his mentor, an erotic writer dying of AIDS. In edgy, disquieting stories, Lowenthal traces the paths that attraction and erotic encounters take, baffling and rueful as often as electrifying. This fraught and funny volume forces us to grapple with our own subconscious desires and question how well we can ever really know ourselves.

When Viscount Desford encounters a lovely waif searching for her grandfather, he feels honor bound to assist her; but dashing about the countryside together, the Viscount must prevent his exasperating charge from bringing him ruin upon herself...and him. In the end, his best idea is to bring Charity to his lifelong best friend Henrietta and that's when the fun and surprises begin... "It all begins when a chivalrous and rich young gallant takes pity on a pathetic poor relation in a neighboring family. Before long he is so entangled in his efforts to help her that every step he takes leads to some hilarious new confusion. The romantic conclusions are not what you may expect, but that adds to the fun."-Publishers Weekly

California is at the cutting edge of technological change, demographic transformation, and international engagement. It has the country's largest population, and is its biggest producer of agricultural and manufactured goods, its main exporter and importer, and a leading center for higher education, research, the media, and philanthropy. Its population is the most international; more than a quarter of the state's residents were born in another country. But habits of thought and structures date from the mid-twentieth century, when California was turned inward. California today lacks ideas, institutions, and policies commensurate with its global stakes and clout. Global California addresses an important subject: how the citizens of a state with the dimensions and power of a nation are affected by international trends, and what they can do to identify and promote their own interests in a rapidly changing world. In this fresh, well-informed, and balanced analysis, Abraham Lowenthal deals with numerous thorny issues—from globalization, trade, and infrastructure to immigration, environmental pollution, climate change, and California's ties with neighboring Mexico and the dynamic Asian economies. A recognized authority on foreign affairs, Lowenthal argues that the real choices are not whether to cheer globalization or condemn it. Rather, Californians need to think strategically and act effectively to gain as much as possible from international engagement while managing its risks and costs. They need to build "cosmopolitan capacity" to understand and respond to global challenges and opportunities. Too much is at stake for California—its citizens, government, firms and non-governmental organizations—to leave thinking and acting on international affairs to the federal government and to East Coast think tank experts. This volume shows Californians how to succeed in an ever more interconnected world.

To protect her daughter from the fast life and bad influences of London, her mother sent her to school in rural Ghana. The move was for the girl’s own good, in her mother’s mind, but for the daughter, the reality of being the new girl, the foreigner-among-your-own-people, was even worse than the idea. During her time at school, she would learn that Ghana was much more complicated than her fellow ex-pats had ever told her, including how much a London-raised child takes something like water for granted. In Ghana, water “became a symbol of who had and who didn’t, who believed in God and who didn’t. If you didn’t have water to bathe, you were poor because no one had sent you some.” After six years in Ghana, her mother summons her home to London to meet the new man in her mother’s life—and his daughter. The reunion is bittersweet and short-lived as her parents decide it’s time that she get to know her father. So once again, she’s sent off, this time to live with her father, his new wife, and their young children in New York—but not before a family trip to Disney World.
