From the Pulitzer Prize-winning and bestselling author of *The Shipping News* and *Accordion Crimes* comes one of the most celebrated short story collections of our time. Annie Proulx's masterful language and fierce love of Wyoming are evident in these breathtaking tales of loneliness, quick violence, and the wrong kinds of love. Each of the stunning portraits in *Close Range* reveals characters fiercely wrought with precision and grace. These are stories of desperation and unlikely elation, set in a landscape both stark and magnificent -- by an author writing at the peak of her craft.

The title story in this collection of shorts now a film from Ang Lee.

The friendship between Ennis del Mar and Jack Twist, two cowboys, evolves into an intimate relationship while they are working together as a herder and camp tender, sharing a bond that spans many years and frequent separations.

Pulitzer Prize-winning author Annie Proulx brings the immigrant experience to life in this stunning novel that traces the ownership of a simple green accordion. E. Annie Proulx's *Accordion Crimes* is a masterpiece of storytelling that spans a century and a continent. Proulx brings the immigrant experience in America to life through the eyes of the descendants of Mexicans, Poles, Africans, Irish-Scots, Franco-Canadians and many others, all linked by their successive ownership of a simple green accordion. The music they make is their last link with the past—voice for their fantasies, sorrows and exuberance. Proulx's prodigious knowledge, unforgettable characters and radiant language make *Accordion Crimes* a stunning novel, exhilarating in its scope and originality.

Winner of the Pulitzer Prize, Annie Proulx's *The Shipping News* is a vigorous, darkly comic, and at times magical portrait of the contemporary North American family. Quoye, a third-rate newspaper hack, with a "head shaped like a crenshaw, no neck, reddish hair...features as bunched as kissed fingertips," is wrenched violently out of his workaday life when his two-timing wife meets her just desserts. An aunt convinces Quoye and his two emotionally disturbed daughters to return with her to the starkly beautiful coastal landscape of their ancestral home in Newfoundland. Here, on desolate Quoye's Point, in a house empty except for a few mementos of the family's unsavory past, the battered members of three generations try to cobble up new lives. Newfoundland is a country of coast and cove where the mercury rarely rises above seventy degrees, the local culinary delicacy is cod cheeks, and it's easier to travel by boat and snowmobile than on anything with wheels. In this harsh place of cruel storms, a collapsing fishery, and chronic unemployment, the aunt sets up as a yacht upholsterer in nearby Killick-Claw, and Quoye finds a job reporting the shipping news for the local weekly, the *Gammy Bird* (a paper that specializes in sexual-abuse stories and grisly photos of car accidents). As the long winter closes its jaws of ice,

each of the Quoyles confronts private demons, reels from catastrophe to minor triumph—in the company of the obsequious Mavis Bangs; Diddy Shovel the strongman; drowned Herald Prowse; cane-twirling Beety; Nutbeem, who steals foreign news from the radio; a demented cousin the aunt refuses to recognize; the much-zippered Alvin Yark; silent Wavey; and old Billy Pretty, with his bag of secrets. By the time of the spring storms Quoyles has learned how to gut cod, to escape from a pickle jar, and to tie a true lover ' s knot.

Pulitzer Prize and National Book Award winner Annie Proulx's *That Old Ace in the Hole* is told through the eyes of Bob Dollar, a young Denver man trying to make good in a bad world. Dollar is out of college but aimless, when he takes a job with Global Pork Rind -- his task to locate big spreads of land in the Texas and Oklahoma panhandles that can be purchased by the corporation and converted to hog farms. Dollar finds himself in a Texas town called Woolybucket, whose idiosyncratic inhabitants have ridden out all manner of seismic shifts in panhandle country. These are tough men and women who witnessed first hand tornadoes, dust storms, and the demise of the great cattle ranches. Now it's feed lots, hog farms, and ever-expanding drylands. Dollar settles into LaVon Fronk's old bunkhouse for fifty dollars a month, helps out at Cy Frease's Old Dog Café, targets Ace and Tater Crouch's ranch for Global Pork, and learns the hard way how vigorously the old owners will hold on to their land, even though their children want no part of it. Robust, often bawdy, strikingly original and intimate, *The Old Ace in the Hole* tracks the vast waves of change that have shaped the American landscape and the character over the past century. In Bob Dollar, Proulx has created one of the most irresistible characters in contemporary fiction.

A collection of nine western-themed tales features an array of pioneer country inhabitants from different backgrounds.

Before she wrote her Pulitzer Prize-winning bestseller *The Shipping News*, E. Annie Proulx was already producing some of the finest short fiction in the country. Here are her collected stories, including two new works never before anthologized. These stories reverberate with rural tradition, the rites of nature, and the rituals of small-town life. The country is blue-collar New England; the characters are native families and the dispossessed working class, whose heritage is challenged by the neorural bourgeoisie from the city; and the themes are as elemental as the landscape: revenge, malice, greed, passion. Told with skill and profundity and crafted by a master storyteller, these are lean, tough tales of an extraordinary place and its people.

“ Magnificent. ” (Anthony Doerr, author of *All the Light We Cannot See*) From Annie Proulx, the Pulitzer Prize- and National Book Award-winning author of *The Shipping News* and “ *Brokeback Mountain* ” comes her masterwork: an epic, dazzling, violent, marvelously dramatic novel about the destruction of the world ' s forests. In the late seventeenth century, two penniless young Frenchmen, René Sel and Charles Duquet, arrive in Canada, then known as New France. Bound to a feudal lord, a seigneur, for three years in exchange for land, they become woodcutters—barkskins. Sel suffers extraordinary hardship, oppressed by the forest he is charged with clearing. He is forced to marry a Mi ' kmaw woman, and their descendants live trapped between two hostile cultures. Duquet, crafty and ruthless, runs away from the seigneur, becomes a fur trader, then sets up a timber business. Proulx tells the stories of the descendants of Sel and Duquet over three hundred years—their travels across North America, to Europe, China and New Zealand under stunningly brutal conditions—the revenge of rivals, accidents, pestilence and cultural annihilation. Again and again, they seize what they can of a presumed infinite

resource, leaving the modern-day characters face-to-face with possible ecological collapse. Proulx ' s inimitable genius is her creation of characters who are so vivid—in their greed, lust, vengefulness or their compassion and hope—that we follow them with fierce attention. Annie Proulx is one of the most formidable and compelling American writers, and *Barkskins* is her greatest novel, a superb marriage of history and imagination.

E. Annie Proulx's first novel, *Postcards*, winner of the 1993 Pen/Faulkner Award for Fiction, tells the mesmerizing tale of Loyal Blood, who misspends a lifetime running from a crime so terrible that it renders him forever incapable of touching a woman. Blood's odyssey begins in 1944 and takes him across the country from his hardscrabble Vermont hill farm to New York, across Ohio, Minnesota, and Montana to British Columbia, on to North Dakota, Wyoming, and New Mexico and ends, today, in California, with Blood homeless and near mad. Along the way, he must live a hundred lives to survive, mining gold, growing beans, hunting fossils and trapping, prospecting for uranium, and ranching. In his absence, disaster befalls his family; greatest among their terrible losses are the hard-won values of endurance and pride that were the legacy of farm people rooted in generations of intimacy with soil, weather, plants, and seasons. *Postcards* chronicles the lives of the rural and the dispossessed and charts their territory with the historical verisimilitude and writerly prowess of Cather, Dreiser, and Faulkner. It is a new American classic.
