Midterm Exam Short Answer questions 1.  
What is the purpose of database? The  
purpose of database is to keep track of  
things. However, If the structure of the list  
is simple enough, there really isn't a need  
to use database technology. For example,  
student grades are simple enough where  
you wouldn't really need database for that.  
Although, if the professor wanted to  
record grades plus email ...
