Digital Wars : Apple, Google, Microsoft and the Battle for ...

Charles Arthur has been the technology editor for The Guardian since 2005, and his 'Digital Wars' is a highly readable account of the evolution since 1990 of that part of the technology industry that focuses on consumer products involving search, digital music, smartphones and tablets. This evolution is given dramatic context by being framed within an account of a series of battles between the protagonists competing to control access by consumers to digital information and services.
