Dr. Tan's Acupuncture Points: A Comprehensive Guide to Pain Relief
This book is a must-have for anyone interested in learning about Balance Acupuncture or as a valuable reference for any established Balance Acupuncture practitioner. In addition to providing a brief history of Balance Acupuncture, Sonia F. Tan, DAOM, R.Ac., R.TCM.P., expands on the knowledge of her own mentors and integrates her wealth of clinical experience and research to pass on her unique perspective. For first-time learners of Balance Acupuncture, it may seem like an overwhelming amount of information since it is not widely taught in Acupuncture schools. This book breaks that information down with short explanations and easy-to-interpret diagrams. In addition, the clinical case studies help solidify the reader's understanding of each system. Dr. Tan also provides memorable shortcuts to the more complex parts of the different systems, making this an ideal clinical reference for an acupuncturist familiar with the basic foundations of Balance Acupuncture. Hints of the author's own personality are apparent and enhance the readability of the text. Experience both the author's enthusiasm for Acupuncture and teaching in each and every chapter, with this concise and easy-to-use guide.

I Ching Acupuncture - The Balance Method is a system of acupuncture point selection based on the principles of Chinese philosophy and classic Chinese texts, including the I Ching, Nei Jing Su Wen and Ling Shu. In this unique book Dr. Twicken presents classic Chinese philosophical models that explain the relationships between philosophy, Chinese medical principles, acupuncture channels and the human body. The models are the He Tu, Luo Shu Nine Palaces, Early Heaven Ba Gua, Later Heaven Ba Gua, Twelve-Stage Growth Cycle, Stems and Branches and the Chinese calendar. These models and theories clearly show the relationships between the acupuncture channels and the human body and provide guiding theory for acupuncture strategies and point selection. I Ching Acupuncture presents six Balance Methods. This clinically effective system of acupuncture is based on minimal and distal acupuncture treatments. I Ching Acupuncture - The Balance Method is a valuable and effective acupuncture system that can complement any practice.

Warmth, Wonder, Excitement, Passion, Creativity: are these what you're missing? Learn the rules of creation and destruction! Understand Yin and Yang and you've grasped the rudiments of Wisdom. Yang provides the creativity, the warmth, the sparkle, the life, the 'spirit' - but also endings and beginnings, war and upheaval - and what happens to you when you see your baby's first smile. In Traditional Chinese medicine, yang deficiency is a syndrome which can be treated. Nations also go through periods of yang deficiency - often harder to get out of and requiring inspirational leaders. This book takes you from your physical symptoms right on out into international affairs of state. Part One of the book starts with explaining how, though we sometimes feel yang deficient, actually we may be normal. There are 4 general types of people - find out which you are! Two of them just aren't very yang, in which case, relax: you're OK! Then there are two main health situations where YOU may think you're yang deficient but actually your problem is something else. Clear those up and you'll be back to normal. After explaining how yin and yang make up the universe, and the four rules passed down to us from ancient China, the book takes you into the mental and physical signs of deficient yang: good to know. Next, it shows you the different ways there are to reduce yang deficiency safely, including advice about what to eat: for example, how both yin and yang foods can support yang. There are chapters on both excess yang and on what the longer term consequences are of weak yang. In Part Two, the focus shifts to how you express your yang energy in the world, and the dangers of weak yang for nation states. There's a chapter on how to use yang energy here safely, and finally a chapter on how yin and yang manifest at different stages of life and in the life of a nation.
