A minister ' s young widow is targeted by a small-town serial killer in the New York Times bestselling author ' s Southern romantic thriller. To most people, respected clergymen like Mark Cantrell are pillars of the community, and completely beyond reproach. But their killer knows better. They are sinners of the worst kind, and they must burn on earth before they burn in hell . . . Eighteen months

after her husband's unsolved murder, Cathy Cantrell has returned to her Alabama home, eager to build a new life for herself and her son. But reminders of her past, like Deputy Sheriff Jackson Perdue, are everywhere. And a spate of recent deaths—each victim burned in the same horrifying manner as her husband—leave Jack and Cathy in no doubt that a serial killer is at work . . . Now as a twisted killer moves in for a final, brutal act of vengeance, buried crimes are coming to light once more. And this time, justice will be swift, merciless, and as silent as the grave . . .

Post TOP TEN BOOKS OF THE YEAR: Los Angeles Times, Christian Science Monitor BEST BOOK OF THE YEAR: Wall Street Journal, NPR, Kirkus, Fresh Air (Maureen Corrigan), San Francisco Chronicle TOP TITLES FOR GIFT GIVING: Chicago Tribune Longlisted for the 2015 National Book Award -- and a nationwide bestseller. Over the past several decades, Edith Pearlman has staked her claim as one of the all-time great practitioners of the short story. Her incomparable vision, consummate skill, and bighearted spirit have earned her consistent comparisons to Anton Chekhov, John Updike, Alice Munro, Grace Paley, and Frank O'Connor. Her latest work, gathered in this stunning collection of twenty new stories, is an occasion for celebration. Pearlman writes with warmth about the

predicaments of being human. The title story involves an affair, an illegitimate pregnancy, anorexia, and adolescent drug use, but the true excitement comes from the evocation of the interior lives of young Emily Knapp, who wishes she were a bug, and her inner circle. "The Golden Swan" transports the reader to a cruise ship with lavish buffets-and a surprise stowaway-while the lead story, "Tenderfoot," follows a widowed pedicurist searching for love with a new customer anguishing over his own buried trauma. Whether the characters we encounter are a special child with pentachromatic vision, a group of displaced Somali women adjusting to life in suburban Boston, or a staid professor of Latin unsettled by a random invitation to lecture on the mystery of life and death, Pearlman knows each of them

intimately and reveals them to us with unsurpassed generosity. In prose as knowing as it is poetic, Pearlman shines a light on small, devastatingly precise moments to reflect the beauty and grace found in everyday life. Both for its artistry and for the recognizable lives of the characters it renders so exquisitely and compassionately, Honeydew is a collection that will pull readers back time and again. These stories are a crowning achievement for a brilliant career and demonstrate once more that Pearlman is a master of the form whose vision is unfailingly wise and forgiving.

electrical and computer engineering students master the process of designing and testing new hardware configurations. A Verilog equivalent of authors Roth and John's previous successful text using VHDL, this practical book presents Verilog constructs side-by-side with hardware, encouraging students to think in terms of desired hardware while writing synthesizable Verilog. Following a review of the basic concepts of logic design, the authors introduce the basics of Verilog using simple combinational circuit examples, followed by models for simple sequential circuits. Subsequent chapters ask readers to tackle more and more complex designs.
