On the other hand, most math courses for which 2710 is a prerequisite will have in-class exams, so this course should prepare you for those. I also think it's important to have samples of students work which were indisputibly created without any outside help in order to grade fairly. It's hard to guarantee that with a take-home exam.

Tom Roby's Math 2710 (Transitions to Advanced Math) Homepage

Your grade will be decided by a final exam consisting of problems of similar difficulty to the homework problems, so it will be quite harder than a usual final math exam at UConn. Course Schedule. There will be 5 remote lectures and 2 problem workshops this semester. Here is the detailed schedule.
