When their mom's boyfriend took them in, Della had Suki. When that same boyfriend did something so awful they had to run fast, Della had Suki. Suki is Della's own wolf--her protector. But who has been protecting Suki? Della might get told off for swearing at school, but she has always known how to keep quiet where it counts. Then Suki tries to kill herself, and Della's world turns so far upside down, it feels like it's shaking her by the ankles. Maybe she's been quiet about the wrong things. Maybe it's time to be loud. Noah Webster, famous for writing the first dictionary of the English language as spoken in the United States, was known in his day for his bold ideas and strong opinions about, well, everything. Spelling, politics, laws, you name it—he had something to say about it. He even commented on his own opinions! With a red pencil in hand, Noah often marked up work that he had already published. So who edited this book? It certainly looks like the ghost of the great American author and patriot picked up a pencil once again to comment on his own biography!

One of the critical issues in interreligious relations today is the connection, both actual and perceived, between sacred sources and the justification of violent acts as divinely mandated. *Fighting Words* makes solid text-based scholarship accessible to the general public, beginning with the premise that a balanced approach to religious pluralism in our world must build on a measured, well-informed response to the increasingly publicized and sensationalized association of terrorism and large-scale violence with religion. In his introduction, Renard provides background on the major scriptures of seven religious traditions--Jewish, Christian (including both the Old and New Testaments), Islamic, Baha'i, Zoroastrian, Hindu, and Sikh. Eight chapters then explore the interpretation of select facets of these scriptures, focusing on those texts so often claimed, both historically and more recently, as inspiration and justification for every kind of violence, from individual assassination to mass murder. With its nuanced consideration of a complex topic, this book is not merely about the religious sanctioning of violence but also about diverse ways of reading sacred textual sources.
