Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.

Bicycling magazine features bikes, bike gear, equipment reviews, training plans, bike maintenance how tos, and more, for cyclists of all levels.

Bicycling magazine features bikes, bike gear, equipment reviews, training plans, bike maintenance how tos, and more, for cyclists of all levels.

MAKE Volume 26: Karts & WheelsGarage go-kart building is a time-honored hobby for do-it-yourselfers, and we'll show you how to build wheeled wonders that'll have you and the kids racing around the neighborhood in DIY style. Build a longboard skateboard by bending plywood. Build a crazy go-kart driven by a pair of battery-powered drills. Put a mini gasoline engine on a bicycle. And construct an amazing wind-powered cart that can outrun a tailwind. Plus you'll learn how to build the winning vehicle from our online Karts and Wheels contest! In addition to karts, you'll find plenty of other projects that only MAKE could give you: A flaming tube that keeps time to music and makes sounds waves visible \ in fire An aquarium tank to grow your own Spirulina algae superfood An electronic music looper that creates cool sounds and lets you build wild rhythm loops

Crime Scene Investigation Laboratory Manual, Second Edition, is written by a former crime scene investigator and forensic scientist who provides practical, straightforward, and immediately applicable best practices. Readers will learn the latest techniques and procedures, including deconstructing first responder contamination, the preliminary walk-through, utilizing associative evidence, enhancing trace, biological and chemical evidence, and reconstructing scenes through wound dynamics, glass fracture patterns, bloodstain patterns, ballistics, and more. This lab manual provides information and examples for all aspects of crime scene investigation. In addition, included exercises teach the proper techniques for securing, documenting and sealing a crime scene, how to visualize or enhance the evidence found, how to package and preserve the evidence, and how to reconstruct what happened at the crime scene. This manual is intended to accompany any crime scene investigation textbook. Designed to complement any text used in crime scene investigation courses Contains over 20+ proven exercises and material from actual crime scenes, providing students with hands-on learning Written by an experienced educator and former crime scene investigator/forensic scientist

The history of flight control cannot be considered separately to the history of aviation. Since the early days, the conception of automatic flight control systems has advanced from mechanical control systems to greatly developed automatic fly-by-wire flight control systems which can be found in military jets and civil airliners these days. Even today, several research attempts are made for the further advancement of these flight control systems in numerous aspects. Current advancements in this area target a variety of different aspects. This book presents a collection of knowledge on important research areas, like inertial navigation, handling of unmanned airplanes and helicopters, trajectory control of an unmanned space re-entry automobile, aeroservoelastic control, modifying flight control, and error tolerant flight control. It discusses theoretical outlook and current conceptual advancements in flight control systems along with describing theories of modified and fault-tolerant flight control systems. Each technique has been elaborated using illustrations and appropriate examples.

A guide to getting the most out of a GPS system provides information on such topics as building and hooking up data cables, modifying the iPAQ cradle, grabbing screenshots, and customizing GPS games.
