It's not enough to be right, these days—especially when you're not left. To survive, the right must learn how to express nonliberal principles as effectively as possible, and persuade others of their point of view. It is an art that demands patience, research, humor, understanding, creative thinking, learning from your opponent and even mimicking their tactics. deeply personal book, James turns the mirror on himself to reveal what he has changed his mind about and why, and explores how examining and changing our own views is our new civic duty in a world of outrage, disagreement and echo chambers. He writes candidly about the stiff upper lip attitudes and toxic masculinity that coloured his childhood, and the therapy and personal growth that have led him question his assumptions and explore new perspectives. Laying open his personal views on everything from racial prejudice to emotional vulnerability, from fat-shaming to tattoos, he then delves into the real reasons -- often irrational or unconscious -- he holds them. Unflinchingly honest, revealing and funny, *How Not to Be Wrong* is a tonic for a world more divided than ever and a personal manifesto for a better way of thinking and living. Because after all, if we can't change our own minds we'll

A compelling guide to ethical thinking for everyday life In *How to Make Good Decisions and Be Right All the Time* Iain King presents an introduction to moral philosophy from the ancient Greeks to the Enlightenment and beyond. He argues that right and wrong need a Newtonian revolution so that they are no longer a matter of judgment or guesswork and presents a system of simple formulas for solving difficult moral quandaries. Clearly argued, the book combines new ideas with old and rips apart traditional tenets of morality, dismantling even the golden rule that you should "do unto others as you would have done unto you." In their place, the author constructs a new, comprehensive system of ethics, identifying the basic DNA of right and wrong and offering clear advice on how to be good in today's complicated and challenging
