Del libro sicuramente colpisce la maniera con cui i personaggi dei membri dei Malavoglia vengono delineati. Verga non li caratterizza in modo specifico, anche perché sono molti, e in questo modo ci è data la possibilità di immaginare su di loro visto che comunque il carattere di ognuno di loro si può intuire dalle scelte che compiono davanti alla disgrazie che li colpiscono.

A moving portrait of Sicilian fishermen who endure misfortune with humor and courage, this 1881 novel by an acclaimed realist writer offers a revealing look at life in post-revolutionary Italy.

First Published in a single volume in 1883, the stories collected in *Little Novels of Sicily* are drawn from the Sicily of Giovanni Verga's childhood, reported at the time to be the poorest place in Europe. Verga's style is swift, sure, and implacable; he plunges into his stories almost in midbreath, and tells them with a stark economy of words. There's something dark and tightly coiled at the heart of each story, an ironic, bitter resolution that is belied by the deceptive simplicity of Verga's prose, and Verga strikes just when the reader's not expecting it. H. Lawrence surely found echoes of his own upbringing in Verga's sketches of Sicilian life: the class struggle between property owners and tenants, the relationship between men and the land, and the unsentimental, sometimes startlingly lyric evocation of the landscape. Just as Lawrence veers between loving and despising the industrial North and its people, so too Verga shifts between affection for and ironic detachment from the superstitious, uneducated, downtrodden working poor of Sicily. If Verga reserves pity for anyone or anything, it is the children and the animals, but he doesn't spare them. In his experience, it is the innocents who suffer first and last and always.

The architecture of the human language faculty has been one of the main foci of the linguistic research of the last half century. This branch of linguistics, broadly known as Generative Grammar, is concerned with the formulation of explanatory formal accounts of linguistic phenomena with the ulterior goal of gaining insight into the properties of the 'language organ'. The series comprises high quality monographs and collected volumes that address such issues. The topics in this series range from phonology to semantics, from syntax to information structure, from mathematical linguistics to studies of the lexicon.

This is the first English translation of Verga's novel *La Storia di una Capinera* and is the official tie-in with

the Zeffirelli film Sparrow. Set in 1854 in a Sicily devastated by a cholera epidemic. Sparrow tells of a love that can never be; the brief existence of a girl, forced to become a nun, who falls in love with a young man, but who, on returning to the convent, goes insane. Zeffirelli chose to film Sparrow as he was intrigued by the need for idealised and absolute love. "It is a challenge for me to tell of 'The Insanity of Absolute Love' with its emotional yearnings and enchantment, its exchanges of furtive glances and stolen caresses".

There are three loves in the life of Joris Borluut, the town carillonneur of Bruges. He marries the fiery Barbe, whose dark beauty is a reminder of Belgium's Spanish heritage. Repelled

by her harshness and violence, he starts an affair with her sister, the gentle, soulful, fair-haired Godelieve. When her sister discovers their affair, Godelieve enters a Beguine convent and Joris devotes himself to his first love, the old city of Bruges. His opposition to a proposal to sacrifice part of the old town to economic advance loses him his position as town architect, and he withdraws to the belfry and his beloved carillon that, for him, expresses the soul of Bruges.
