International Journal of Engineering Business Management (IJEEM) is a peer-reviewed open access journal which focuses on the design, development and implementation of new methodologies and technologies in engineering, business and management. Please see the Aims and Scope tab for further information.

"This book introduces an integrated approach to analyzing and building customer knowledge management (CKM) synergy from distinctive core advantages found in key organizational elements"--Provided by publisher.

LNBIP 99 and LNBIP 100 together constitute the thoroughly refereed proceedings of 12 international

workshops held in Clermont-Ferrand, France, in conjunction with the 9th International Conference on Business Process Management, BPM 2011, in August 2011. The 12 workshops focused on Business Process Design (BPD 2011), Business Process Intelligence (BPI 2011), Business Process Management and Social Software (BPMS2 2011), Cross-Enterprise Collaboration (CEC 2011), Empirical Research in Business Process Management (ER-BPM 2011), Event-Driven Business Process Management (edBPM 2011), Process Model Collections (PMC 2011), Process-Aware Logistics Systems (PALS 2011), Process-Oriented Systems in Healthcare (ProHealth 2011), Reuse in Business Process Management (rBPM 2011), Traceability and Compliance of Semi-Structured Processes (TC4SP 2011), and Workflow Security Audit and Certification (WfSAC 2011). In addition, the proceedings also include the Process Mining Manifesto (as an Open Access Paper), which has been jointly developed by more than 70 scientists, consultants, software vendors, and end-users. LNBIP 99 contains the revised and extended papers from BPD 2011, BPI 2011 (including the Process Mining Manifesto), BPMS2 2011, CEC 2011, ER-BPM 2011, and edBPM 2011.

Knowledge Management in Emerging Economies: Social, Organizational and Cultural Implementation seeks focuses on knowledge management theoretical models and empirical research findings for developing economies. This book specifically seeks to understand the social, organizational, and cultural implementation aspects of knowledge management in the context of developing economies, and to discuss issues, challenges, and trends surrounding this implementation.

This book intends to provide the readers with the fundamentals of business process change (BPC) and how BPC can be applied to the processes and culture that are inherent in the universities. The concepts and principles highlighted in the book will give further understanding on the organisational change area. The information shared in this book represents concepts, practised, issues and challenges in various changes projects. The book examines the connection of business process reengineering (BPR), Total Quality Management (TQM) and learning organisation (LO). The readers will be exposed to the BPC concepts, strategies and directions for implementation and successful monitoring in the university environment. The book provides the evidence-based practice implementation case studies case evidences on the recent successes in applying BPC in the universities. The book gives readers a comprehensive guideline for BPC using the WISER model. The book explains the BPC methodology with the five phases in detail. Interestingly, the book comes out with the evidence-based practice implementation case-evidenced BPC in the universities, the real life experiences as practical examples for illustrations. The readers could understand the WISER model, which can aid the strategic and project planning of the universities. The book provides the readers with tools and techniques, and the plan of actions that are utilised in the wake-up, identification, selection, execution and re-evaluation phases in the WISER model.

"This book offers insights into issues, challenges, and solutions related to the successful application and management aspects of electronic business, providing a comprehensive framework for researchers and practitioners in understanding the growing demand of e-business research"--Provided by publisher.

As the age of Big Data emerges, it becomes necessary to take the five dimensions of Big Data- volume, variety, velocity, volatility, and veracity- and focus these dimensions towards one critical emphasis - value. The Encyclopedia of Business Analytics and Optimization confronts the challenges of information retrieval in the age of Big Data by exploring recent advances in the areas of knowledge management, data visualization, interdisciplinary communication, and others. Through its critical approach and practical application, this book will be a must-have reference for any professional, leader, analyst, or manager interested in making the most of the knowledge resources at their disposal.

"This book provides the most up-to-date research findings and future directions for customer relationship management in contemporary enterprises, covering a wide range of topics such as management issues, innovative ideas, state-of-the-art business applications, and evaluation of social media products and services"--Provided by publisher.
