Talking books: what to read and what to avoid (Fantasy) The Emerging Face of Buddhism

There is No Enemy: A Toolkit for Change*What Students Hear—Ken MacLeod talking with Stephanie Nash* *Intrusion Ken Macleod*

Ken Macleod has portrayed a thoroughly believable near-future dystopia. The central protagonists, Hope and her husband Hugh, along with their first-born, Nick, attempt to navigate this world maintaining an independence that is increasingly compromised 'for their own good'. It starts with 'the fix'.

[Intrusion: MacLeod, Ken: 9781841499390: Amazon.com: Books](#)

Ken Macleod has been moving his SF from far future tales spanning distant star systems to colder, more rationally-extrapolated near-future visions of distinctly worryingly plausible futures. Intrusion features perhaps his most minimally-different future yet: a Britain of ubiquitous surveillance, extreme policing and enforced conformity done with the best possible taste.

Review: Intrusion by Ken MacLeod (Orbit, 2012) They say that the best dystopian fiction should always be uncomfortably close to home. Brave New World and 1984, the two shining examples of the genre, dressed up the social concerns of their days in futuristic garb which, laughably dated and inaccurate as they may seem to modern eyes, did not detract at all from the books' core warnings.

[Intrusion by Ken MacLeod | The Taichung Bookworm](#)

Imagine a near-future city, say London, where medical science has advanced beyond our own and a single-dose pill has been developed that, taken when pregnant, eradicates many common genetic defects from an unborn child. Hope Morrison, mother of a hyperactive four-year-old, is expecting her second child. She refuses to take The Fix, as the pill is known. This divides her family and friends and ...

Intrusion, by Ken Macleod (Orbit, 2012, 387 pp., available used in the US, new in the UK) reviewed by Zeke Teflon Here's one that really slipped through the cracks, which is a shame because it's the best near-future dystopian sci-fi novel that's appeared in years. It's frightening because it's all too plausible.
