The topic of this book is known as dynamic scheduling, and is used to refer to three dimensions of project management and scheduling: the construction of a baseline schedule and the analysis of a project schedule's risk as preparation of the project control phase during project progress. This dynamic scheduling point of view implicitly assumes that the usability of a project's baseline schedule is rather limited and only acts as a point of reference in the project life cycle. Consequently, a project schedule should especially be considered as nothing more than a predictive model that can be used for resource efficiency calculations, time and cost risk analyses, project tracking and performance measurement, and so on. In this book, the three dimensions of dynamic scheduling are highlighted in detail and are based on and inspired by a combination of academic research studies at Ghent University (www.ugent.be), in-company trainings at Vlerick Business School (www.vlerick.com) and consultancy projects at OR-AS (www.or-as.be). First, the construction of a project baseline schedule is a central theme throughout the various chapters of the book, and is discussed from a complexity point of view with and without the presence of project resources. Second, the creation of an awareness of the weak parts in a baseline schedule is discussed at the end of the two baseline scheduling parts as schedule risk analysis techniques that can be applied on top of the baseline schedule. Third, the baseline schedule and its risk analyses can be used as guidelines during the project control step where actual deviations can be corrected within the margins of the project's time and cost reserves. The second edition of this book has seen corrections, additions and amendments in detail throughout the book. Moreover Chapter 15 on "Dynamic Scheduling with ProTrack" has been completely rewritten and extended with a section on "ProTrack as a research tool".

“Once he met her, it was and always would be Lyla.” They were the gentlemen bad boys of rock. Forming in a garage in a small town in Indiana. Taking their licks on the road. Going balls to the wall until they made their big break. And then Preacher McCade and the Roadmasters redefined rock and roll. Guided by their tortured lead singer and songwriter, the Roadmasters changed the face of music in the 80s and 90s. And on their journey to becoming one of the most enduring bands in history—dogged by rumors and myth and fueled by drugs and booze—the Roadmasters had one touchstone. Lyla. Preacher's muse, the love of his life, and the band's moral compass, from the beginning, Lyla is along for the ride. But with fame and acclaim in their grasp, they've entered the fast lane. And they didn't know it, but they were headed for a crash.

This textbook provides a comprehensive account of the most important new Civil Procedure Rules, Practice Directions and Pre-action Protocols, which make up our newly reformed civil procedure system. The substance of the rules are considered in detail and their effect explained to make it clear how they operate in practice. Case law is examined to demonstrate how the court applies the rules in practice. The Woolf Reforms are used to explain the rationale of the new system.; The book provides not only a clear guide to the meaning of the new rules but also a vital insight into the new culture, typified by case management, proportionality and the overriding objective, which has fundamentally reformed the principles on which our civil procedure system is based. A critique is given of the merits of the reforms and the likelihood that they will achieve their objectives.

A memoir of Cassie's life leading up to, and during her Expedition around the world. At age twenty-seven, Cassie De Pecol accomplished something remarkable. She became the first woman on record to travel to every country on Earth, and did it faster than anyone in history, male or female. She was inspired by her experiences on the Discovery Channel's Naked and Afraid both the three weeks she spent in the Panamanian wilderness and the cyberbullying she endured after the show. And it opened her eyes to the need for women to make a difference in the world. In Expedition 196, Cassie shares the secrets behind her personal triumphs and miraculous achievements. It's the story of a dreamer and a doer who went from restless college dropout to fearless adventurer to philanthropist and humanitarian activist dedicated to female empowerment and global sustainability. Thrilling, inspiring, and unforgettable, Expedition 196 views the world through the eyes of one extraordinary young woman whose heart took her farther than most people can even

imagine.
