Clutch control refers to the act of controlling the speed of a vehicle with a manual transmission by partially engaging the clutch plate, using the clutch pedal instead of (or in conjunction with) the accelerator pedal.

~~Clutch control - Wikipedia~~
Let's begin with the basics – a manual car has a gear system that you operate yourself by moving the gear stick and pressing down the clutch pedal. The majority of vehicles driven in the UK are manual. An automatic car changes gears for you automatically in relation to the speed you're travelling and doesn't have a clutch pedal.
