That's what Mazda was aiming at. As for what we've got, well there's quite a lot. The fact that the 2.0-litre

'Skyactive-G' petrol engine we're going to try here ignores turbocharging is another break with current convention, though Mazda has followed the current trend towards part-electrified mild hybrid technology for it.

Mazda's unconventional approach to automotive design has born real fruit when it comes to the engineering of this Mazda3 Skyactiv-X model. What we're served up here is a family hatch-style model that offers fairly potent 180PS power, yet can deliver the kinds of efficiency returns you'd expect from a diesel in this class.

Mazda 3 1.5 SkyActiv-D | Reviews | Complete Car

The Mazda 3 saloon is an attractive new option for buyers of the brand 's Focus and Astra rival and in some ways more practical, offering more rear-seat and boot space than its hatch sister. The SkyActiv-X engine, meanwhile, is a major advance, with its diesel-like efficiency wrapped up in a petrol package.
