Didion trains her penetrating vision on Miami's Cuban exile community during the 1980s, dissecting their hopes and fierce politics, their undying commitment to Castro's overthrow, and their tangled dynamic with successive American administrations since the failed Bay of Pigs invasion ...

Not unexpectedly, and with customary flair, Didion ignores the traditional features of Miami, looks briefly at tense race relations, white flight, and a saturated real-estate market, and concentrates on a kind of second city, the community of Cuban exiles who have prospered even as they pursue la lucha, the straggle.

As Didion follows Miami's drift into a Third World capital, she also locates its position in the secret history of the Cold War, from the Bay of Pigs to the Reagan doctrine and from the Kennedy assassination to the Watergate break-in. Miami is not just a portrait of a city, but a masterly study of immigration and exile, passion, hypocrisy, and political violence.

An astonishing account of Cuban exiles, CIA informants, and cocaine traffickers in Florida by the New York Times–bestselling author of South and West. In Miami, the National Book Award–winning author of The Year of Magical Thinking looks beyond postcard images of fluorescent waters, backlit islands, and pastel architecture to explore the murkier waters of a city on the edge. From Fidel Castro and the Bay of Pigs invasion to Lee Harvey Oswald and the Kennedy assassination to Oliver North and the Iran-Contra affair, Joan Didion uncovers political intrigues and shadowy underworld connections, and documents the US government's "seduction and betrayal" of the Cuban exile community in Dade County. She writes of hotels that offer "guerrilla discounts," gun shops that advertise Father's Day deals, and a real-estate market where "Unusual Security and Ready Access to the Ocean" are perks for wealthy homeowners looking to make a quick escape. With a booming drug trade, staggering racial and class inequities, and skyrocketing murder rates, Miami in the 1980s felt more like a Third World capital than a modern American city. Didion describes the violence, passion, and paranoia of these troubled times in arresting detail and "beautifully evocative prose" (The New York Times Book Review). A vital report on an immigrant community traumatized by broken dreams and the cynicism of US foreign policy, Miami is a masterwork of literary journalism whose insights are timelier and more important than ever.

A big, panoramic story of the new America, as told by our master chronicler of the way we live now. As a police launch speeds across Miami's Biscayne Bay—with officer Nestor Camacho on board—Tom Wolfe is off and running. Into the feverous landscape of the city, he introduces the Cuban mayor, the black police chief, a wanna-go-muckraking young journalist and his Yale-marinated editor; an Anglo sex-addiction psychiatrist and his Latina nurse by day, loin lock by night—until lately, the love of Nestor's life; a refined, and oh-so-light-skinned young woman from Haiti and her Creole-spouting, black-gang-banger-stylin' little brother; a billionaire porn addict, crack dealers in the 'hoods, "de-skilled" conceptual artists at the Miami Art Basel Fair, "spectators" at the annual Biscayne Bay regatta looking only for that night's orgy, yenta-heavy ex-New Yorkers at an "Active Adult" condo, and a nest of shady Russians. Based on the same sort of detailed, on-scene, high-energy reporting that powered Tom Wolfe's previous bestselling novels, BACK TO BLOOD is another brilliant, spot-on, scrupulous, and often hilarious reckoning with our times.

Incisive essays on Patty Hearst and Reagan, the Central Park jogger and the Santa Ana winds, from the New York Times–bestselling author of South and West. In these eleven essays covering the national scene from Washington, DC; California; and New York, the acclaimed author of Slouching Towards Bethlehem and The White Album "capture[s] the mood of America" and confirms her reputation as one of our sharpest and most trustworthy cultural observers (The New York Times). Whether dissecting the 1988 presidential campaign, exploring the commercialization of a Hollywood murder, or reporting on the "sideshow" of foreign wars, Joan Didion proves that she is one of the premier essayists of the twentieth century, "an articulate witness to the most stubborn and intractable truths of our time" (Joyce Carol Oates, The New York Times Book Review). Highlights include "In the Realm of the Fisher King," a portrait of the White House under the stewardship of Ronald and Nancy Reagan, two "actors on location;" and "Girl of the Golden West," a meditation on the Patty Hearst case that draws an unexpected and insightful parallel between the kidnapped heiress and the emigrants who settled California. "Sentimental Journeys" is a deeply felt study of New York media coverage of the brutal rape of a white investment banker in Central Park, a notorious crime that exposed the city's racial and class fault lines. Dedicated to Henry Robbins, Didion's friend and editor from 1966 until his death in 1979, After Henry is an indispensable collection of "superior reporting and criticism" from a writer on whom we have relied for more than fifty years "to get the story straight" (Los Angeles Times).

NATIONAL BESTSELLER • "Didion at her finest" —USA Today • An intricate, fast-paced novel about trying to create a context for democracy and getting hands a little dirty in the process, complete with conspiracies, arms dealing, and assassinations. From the author of The Year of Magical Thinking and Let Me Tell You What I Mean The narrator introduces Elena McMahon, estranged from a life of celebrity fundraisers and from her powerful West Coast husband, Wynn Janklow, whom she has left, taking Catherine, her daughter, to become a reporter for The Washington Post. She finds herself boarding a plane for Florida to see her father. She becomes embroiled in her his business even though "she had trained herself since childhood not to have any interest in what he was doing." It is from this moment that she is caught up in something much larger than she could have imagined. Didion makes connections among Dallas, Iran-Contra, and Castro, and points out how "spectral companies with high-concept names tended to interlock." As this book builds to its terrifying finish, we see the underpinnings of a dark historical underbelly.

This is a personal narrative as well as a book about Miami at the moment in the mid-1980s when the transformation of the city by its Cuban exile population was achieving critical mass. Rieff looks at Miami as America's New Havana, with a nod to the image fostered by TV's Miami Vice - an easy-going recital of his visits with Miami's most influential Cuban leaders, ranging from moderates to possibly murderous, anti-Castro politicians, along with tours of the city's now-famed Calle Ocho.

The author recounts her 1982 visit to El Salvador and describes the terror, fear and political repression that permeated the country

The iconic writer's electrifying first novel is a story of marriage, murder and betrayal that only she could tell with such nuance, sympathy, and suspense—from the bestselling, award-winning author of The Year of Magical Thinking and Let Me Tell You What I Mean. Everett McClellan and his wife, Lily, are the great-grandchildren of pioneers, and what happens to them is a tragic epilogue to the pioneer experience—a haunting portrait of a marriage whose wrong turns and betrayals are at once absolutely idiosyncratic and a razor-sharp commentary on the history of California.

New York Times Bestseller: An "elegant" mosaic of trenchant observations on the late sixties and seventies from the author of Slouching Towards Bethlehem (The New Yorker). In this landmark essay collection, Joan Didion brilliantly interweaves her own "bad dreams" with those of a nation confronting the dark underside of 1960s counterculture. From a jailhouse visit to Black Panther Party cofounder Huey Newton to witnessing First Lady of California Nancy Reagan pretend to pick flowers for the benefit of news cameras, Didion captures the paranoia and absurdity of the era with her signature blend of irony and insight. She takes readers to the "giddily splendid" Getty Museum in Los Angeles, the cool mountains of Bogotá, and the Jordanian Desert, where Bishop James Pike went to walk in Jesus's footsteps—and died not far from his rented Ford Cortina. She anatomizes the culture of shopping malls—"toy garden cities in which no one lives but everyone consumes"—and exposes the contradictions and compromises of the women's movement. In the iconic title essay, she documents her uneasy state of mind during the years leading up to and following the Manson murders—a terrifying crime that, in her memory, surprised no one. Written in "a voice like no other in contemporary journalism," The White Album is a masterpiece of literary reportage and a fearless work of autobiography by the National Book Award–winning author of The Year of Magical Thinking (The New York Times Book Review). Its power to electrify and inform remains undiminished nearly forty years after it was first published.
