The Mitsubishi Pajero's roots trace back to 1934, as a government prototype referred to as the PX33. The first public prototype displayed at the Tokyo Motor Show in 1973 and the second in 1978. In 1981 the first production Pajero arrived on display, and a year later, it was available for sale as a 1982 model year.

More power would be nice but the 4d56 does have enough power to move the vehicle around with ease. I even pull my tent trailer with mine and find it not too bad. Before my Pajero I was driving an 84 Toyota Diesel truck with the 2L engine. It had around 70-75 HP. If I had the option for the 4m40 I would take it but I am happy with the 4d56 as well.
