A New York Times Bestseller Winner of the James Beard Award for General Cooking and the IACP Cookbook of the Year Award "The one book you must have, no matter what you're planning to cook or where your skill level falls."—New York Times Book Review Ever wondered how to pan-fry a steak with a charred crust and an interior that's perfectly medium-rare from edge to edge when you cut into it? How to make homemade mac 'n' cheese that is as satisfyingly gooey and velvety-smooth as the blue box stuff, but far tastier? How to roast a succulent, moist turkey (forget about brining!)—and use a foolproof method that works every time? As Serious Eats's culinary nerd-in-residence, J. Kenji López-Alt has pondered all these questions and more. In *The Food Lab*, Kenji focuses on the science behind beloved American dishes, delving into the interactions between heat, energy, and molecules that create great food. Kenji shows that often, conventional methods don't work that well, and home cooks can achieve far better results using new—but simple—techniques. In hundreds of easy-to-make recipes with over 1,000 full-color images, you will find out how to make foolproof Hollandaise sauce in just two minutes, how to transform one simple tomato sauce into a half dozen dishes, how to make the crispiest, creamiest potato casserole ever conceived, and much more.

In the book's second part, Aki and Alex explore topics, such as working with liquid nitrogen and carbon dioxide—techniques that are geared towards professional cooks but interesting and instructive for passionate foodies as well. With primers and detailed usage guides for the pantry staples of molecular gastronomy, such as transglutaminase and hydrocolloids (from xanthan gum to gellan), *Ideas in Food* informs readers how these ingredients can transform food in miraculous ways when used properly. Throughout, Aki and Alex show how to apply their findings in unique and appealing recipes such as Potato Chip Pasta, Root Beer-Braised Short Ribs, and Gingerbread Soufflé. When it comes to traditional comfort food, most of the key ingredients are off-limits to health-conscious vegans. But giving up shepherd's pie, eggplant parm, and cheesy rice casserole was not an option for Julie Hasson, who took on the challenge to recreate flavors she loved, but without the cheese, eggs, butter, and cholesterol. The results are a mix of retro flavors, such as Nacho Cheesy Sauce and a lighter Cream of Mushroom Soup, and fresh, veggie-forward dishes like Mediterranean Stuffed Cabbage Rolls and Summer Corn Custard. The recipes come together quickly, focus on whole-food ingredients without processed margarines or trans-fats, and are endorsed by some of the toughest critics, Julie's college-aged children and their visiting friends! With recipes like Zucchini Basil Lasagna and Tamale Pie, you're guaranteed to find a casserole you'll love. You can even make your own casserole creations by pairing any of the super-simple sauces with your favorite veggies and rice or pasta. Of course, desserts are an important cap to any casserole-based meal: satisfy your sweet tooth with dishes like Rustic Bread Pudding. Now: dig in and feel good about it!

Winner of the 2015 International Association of Culinary Professionals (IACP) Cookbook Award Forewords by Alice Waters and Michael Pollan In this dazzling, full color cookbook and kitchen manual filled with lush photographs and beautiful drawings, the chef of Alice Waters' Chez Panisse offers basic techniques and essential recipes that will transform anyone into a confident home cook. When his oldest son was leaving for college, Cal Peternell, the chef of San Francisco's legendary Chez Panisse, realized that, although he regularly made dinners for his family, he'd never taught them the basics of cooking. Peternell focuses on the core foods and dishes that comprise a successful home cook's arsenal, each building skill upon skill—from toast, eggs, and beans, to vinaigrettes, pasta with tomato, and rice, to vegetables, soup, meats, and cake. *Twelve Recipes* will help home cooks develop a core repertoire of skills and increase their culinary confidence. Peternell tells you what basic ingredients and tools you need for a particular recipe, and then adds variations to expand your understanding. Each tip, instruction, and recipe connects with others to weave into a larger story that illuminates the connection between food and life. A deeply personal book, it was written by the chef alone and it glows with warmth and humor as he mulls over such mundane items as toast and rice to offer surprising new insights about foods that only seem exceedingly ordinary. It's a book you're as likely to keep by your bedside as your stovetop. With Peternell as your guide, the journey is pure pleasure and the destination is delicious. *Twelve Recipes* features gorgeous color photos and inset illustrations by Peternell's wife and sons (all artists), and forewords by celebrated chef Alice Waters and New York Times columnist and bestselling author Michael Pollan.
