Performance dashboards : measuring, monitoring, and ...
A performance dashboard is really a performance management system. It communicates strategic objectives and enables business people to measure, monitor, and manage the key activities and processes needed to achieve their goals.

What Are Performance Dashboards? | BPM Partners
A product performance dashboard offers a wide range of information in one central location, allowing organizations to drill down into important product metrics and key performance indicators (KPIs) without the need to log in to separate tools or platforms but only a single dashboard software. It helps to

easily spot the overall performance of product lines and adjust the quality, development of new products and evaluating existing ones.
