### **Pug Hill, Alison Pace**

This is by far Alison Pace's best book to-date. Her quick wit and penchant for writing humorous tales revolving around dogs and art have come together in this magnum opus. While I loved and adored Pug Hill, what left me wanting more from that story was that the pugs of Pug Hill were not in it enough.

In Alison Pace's charming second novel PUG HILL, Metropolitan Museum of Art conservationist Hope McNeill is an endearingly neurotic basket case. She has a squash-playing boyfriend who she's not happy with, a coworker she's in (unrequited) love with, and a fear of public speaking, which suddenly becomes an issue when her parents call and ask her to give a speech for their 40th anniversary.

### **Pug Hill by Alison Pace (2006, UK-B Format Paperback) for ...**

This was the first Alison Pace book I've read, and I was pleasantly surprised. I am a die-hard Pug lover, and have 2 of my own. So I know a lot about Pugs and their peculiar behaviors, and it seemed at times that she was a bit off-base about the typical Pug traits, but she does capture their very essence.

For Hope McNeill, pugs are love, happiness, freedom-and everything else she finds lacking in her own life. With no time or apartment space for a pug of her own, Pug Hill in Central Park is her one refuge from her mismatched boyfriend, her hopeless coworker crush, and the biggest crisis of all-a spee...

The long-awaited follow-up to Pug Hill--from "a poignant and very funny" (Washington Post) writer. Hope McNeill has worked at the Metropolitan Museum of Art for years, but this is the first time she's been able to bring along her pug, Max (without sneaking him in in her tote bag). The occasion is a party

for an Animals in 19th-Century Art exhibit, but the evening ends badly when a small but important painting seems to be missing. The Met needs Hope's-and Max's-help. And Hope has to keep it all a secret from her beloved, Manhattan DA Ben Brown.

A young woman with a yen for pugs, a crush on one of her co-workers, a failing romance, and a horrible fear of public speaking, Hope McNeill is confronted by a request to make a speech at her parents' anniversary party and signs up for a public speaking class in the hope that it will transform her into an eloquent and confident orator. Original. 40,000 first printing.

You Tell Your Dog First... About the date you just had...about the questionable results of a medical test...about the good and the bad...about everything. For years, award-winning author Alison Pace was a dog person without a dog. And then, she got Carlie—a feisty and fluffy West Highland white terrier. She could weed out bad boyfriends with a sniff of her button-black nose and win the hearts of lifelong friends with an adoring gaze. Suddenly, Alison had a constant companion and confidante, who went with her on long morning rambles in Central Park, on trips to the country and the beach, and on her search for inner peace, love, and happiness. Through Carlie, Alison found herself connected to the world as never before. With her trademark warmth, wit and humor, Alison shares her stories...the tales of a dog person who found her dog.

New from Alison Pace, the author of Pug Hill. After her divorce, Amy Dodge thought she'd finally write the next Great American Novel. Instead she's written a bestselling children's book series, Run, Carlie, Run! starring her adorable and spirited West Highland White terrier and a dashing (but fictional) Scottish explorer. When Carlie is offered a starring role in her own television show, and the explorer begins to take on a life of his own, Amy's world takes a surreal turn. But just when Amy starts thinking it's a dog's life after all, she figures out a way to make everything change. And though life in New York isn't always a walk in the park, it might just take her exactly where she needs to be.

Determined to lose weight, two sisters with little in common--Stephanie, an overwhelmed, stay-at-home mother of a six-month-old infant, and Meredith, a successful food critic with no boyfriend in sight--decide to join forces to accomplish their goals. By the author of Pug Hill. Original.

Initially, gallery manager Jane Laine isn't very impressed with "it" artist Ian Rhys-Fitzsimmons. Which could be kind of a problem, since she's the one who has to accompany him on a five-month international art fair tour. To get through it all, Jane figures she'll be a good sport and keep her critiques to herself. She's preoccupied enough with mending her own broken heart, re-thinking her career path, and dealing with her Schnauzer-obsessed family. But now, traveling with this alleged genius from London to Rome and beyond, she starts to understand the connection between art and love—and the fact that in both, perspective is everything.

Refreshing and insightful, rich with humour and brimming with life, this is the story of Nina Shepard, dog walker extraordinaire. With the keys to many strangers' apartments, Nina has the access, the freedom, and the choice to cross a moral boundary, and several foyers, and enter into other people's lives. And so she falls in love with Daniel, a man she has never met but whom she thinks she knows from snooping in his apartment when she picks up his dog for walks. But both Nina and Daniel are imposters, pretending to be what they are not. By the time they learn who the other really is, after mishaps and mistaken identities, deception and lost dogs, it's too late. They've learned too much about themselves and will never be the same again.

An irresistible novel about women, men, and the dogs that own them. Thirty-nine year old Rachel is having a really bad year. After losing her job and breaking up with her boyfriend, Rachel has inherited her late aunt's house, her beloved border collie, and a crowded rescue kennel, despite the fact that she knows almost nothing about dogs. Still, considering her limited options, she gamely takes up the challenge of running the kennel. And as Rachel starts finding new homes for the abandoned strays, it turns out that it might not just be the dogs that need rescuing.

Juggling widowed parenthood with her career and numerous Cotswolds events, Nel Innes struggles to rally the community after the death of an old friend threatens regional lands, a situation that is complicated by a handsome lawyer for the opposition. 10,000 first printing.

"Dave Barry is one funny human." --San Francisco Examiner For thousands of years, women have asked themselves: What is the deal with guys, anyway? What are they thinking? The answer, of course, is: virtually nothing. Deep down inside, guys are extremely shallow. But that has not stopped Dave Barry from writing an entire book about them. If you're a guy--or if you're attempting to share a remote control with one--you need this book, because it deals frankly and semi-thoroughly with such important guy issues as: Scratching The role of guys in world history, including the heretofore-unknown relationship between the discovery of North America and golf Why the average guy can remember who won the 1960 World Series, but not necessarily the names of all his children The Noogie Gene Why guys cannot simultaneously think and look at breasts Secret guy orgasm-delaying techniques, including the Margaret Thatcher Method Why guys prefer to believe that there is no such thing as a prostate And much, much more "Whether you're a guy--or attempting
