The ABA Journal serves the legal profession. Qualified recipients are lawyers and judges, law students, law librarians and associate members of the American Bar Association.

Jalebi Management, the first book in Shombit Sengupta's Jalebi Trilogy, compared Indian industry to a jalebi. It showed how it is necessary for organizations to interconnect seamlessly, both internally and externally, so that business can swim smoothly in the sweet syrup of the jalebi. However, the jalebi has a flip side too—its shape is never predictable; but business has to be unsurprising. Being the world's most complex and heterogeneous society how can India find a pattern to get out of the irregular, negative aspects of the jalebi? Strategic Pokes, this second book, is about all the unconstructive areas that business houses in India have to cope with. The book rides through the Indian and European landscape, spanning across history, to explore the perceptible, exciting distinction that customers value. It has examples of how the West is obsessed with embedding the "quality spark" in products and services, which enables them to deftly handle their business and successfully take it around the world. The book reveals how Indian business entangles itself in the jalebi's uneven character, and then with disruptive insights, it looks for a jalebi pattern to exit this maze.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Watches are more than devices useful for monitoring the time you have left in a day, assessing where the day went or when you need to be someplace. They look good, they help keep life organized and they can be some of the most impressive collectibles or heirlooms you will ever find. Within the book of this time keeper's must-have, you will discover more than 1,000 color photos of wristwatches and pocket watches, detailed descriptions and up-to-date pricing for famous makers such as Elgin, Longines, Omega, Hamilton, Rolex and Bulova.
