Living and working abroad. Sounds glamorous—and maybe it is, if you're posted to Hong Kong or Sydney. But what if your company sends you to Bangkok, Warsaw, or Manila? Many questions arise: Is it safe to go out at night? Do quality schools exist? How polluted is the air? Is public transportation handy? What's the average monthly rent for a decent house? What inoculations should you get before you go? Can you find your favorite brand of toothpaste? The Global Manager's Guide to Living and Working Abroad: Eastern Europe and Asia answers these and many other questions expats will have about the cities that companies send employees to most often in Eastern Europe and Asia, as well as Australia, New Zealand, and South Africa. Though the heart of the book is the city-by-city listing, it also includes tips on preparing for the move, dealing with culture shock, staying connected to the home front, understanding the psychological aspects of living abroad, country-specific business and social etiquette, and other topics of concern to workers sent abroad. The guide also includes information for corporate HR people: When a cost of living differential is appropriate and how to calculate it, how to obtain necessary work permits and visas, how to help employees stay as safe and secure as possible, and how to arrange for healthcare and insurance. Best of all, the information is up to date and comes right from the fresh research of Mercer—the consultancy many other companies turn to for advice and the latest facts regarding working and living conditions in all corners of the globe. That's why this book will help expatriate employees feel at home in cities far from their native land whether it's Seoul, Moscow, or Dubai.

This practical book explains the process of adopting a child from Russia, from first contact with a Russian agency through bonding with the adopted child back at home. Karwowski provides a resource that parents can carry along as they navigate the paperwork, the home assessment, court hearings, medical exams, and financial components of what can otherwise seem like an overwhelming process. Herself the adoptive parent of two sons from Russia, the author also details common issues families face as they acclimate their new child to their home, family, and American culture. Aiming to break the process into manageable steps, Karwowski incorporates her own experience as a backdrop. Degreed in both psychology and sociology, she discusses sensitive issues regarding the child, which can include issues of abandonment, trust, and attachment. For all of these, she presents methods adoptive parents can use to see the signs and cope. She also addresses misconceptions commonly held about adoptions from Russia, the country to which she traveled four times across two years, to adopt her sons.
