Ethnography of a Modern Job ...
The machines are the third party
to the triangular relationship of
service. In a sense, the machines
create and partially determine the
world of service, in that the
relations between customers and
technicians that have been
described in the preceding
chapters occur because of the
presence and behavior of
machines.

Talking about machines: An ethnography of a modern job
Heralded as a book which demonstrates "an uncompromising ethnographic eye on work practices (1996:xiv)", Talking about Machines by Julian Orr does not live up to its advertising. While being thorough (overly so) in his explanations of the "interactions" of technicians who travel to clients throughout Silicon Valley, he is sadly lacking in providing the ethnography he claims to be

An Ongoing Machine Ethnography.

Toward a machine-centered ...

Technicians are quite explicit about how much they value independence. They also talk about how much they like the fact that they have to think about their work. With advantages like these, unhappy customers and erratic machines are not major drawbacks; they are opportunities to be heroic and material for better stories. The Challenge to Management...
