I enjoyed this account of the Renaissance through the lives of three men - Leonardo Da Vinci, Machiavelli, and Cesare Borgia - the artist, philosopher and warrior of the title. The book was strongest for me on Da Vinci, giving something of a feel for the man as well as for his genius, and weakest on Borgia - who is accounted for mainly by reference to battles and military exploits.

And yet, for several months in 1502 and 1503, the artist (serving as military engineer), the philosopher (officially representing Florence, imperiled economically and militarily, yet paralyzingly indecisive over political allegiances), and the warrior indeed were together as Borgia made his eventually-doomed move, with his corrupt and debauched father, Pope Alexander VI, pulling the political strings in the background from the Vatican, to begin the quest to rule a united Italy.
