The health and care system in the UK is facing a challenge the like of which has not been seen in living memory. It is a crisis that has rewritten the rules: who cannot be amazed, whether it 's by the sight of our empty cities or the NHS and the army turning the ExCeL centre into a giant critical care unit.

preparing for college. The latter receive schooling for the head but little for the heart and soul. Noddings counteracts this condition, insisting that our aim should be to encourage the growth of competent, caring, loving and lovable persons, a moral priority that our educational system ignores. She argues that liberal education dictates
