A visionary philosopher, poet and guru, he claimed the planet Saturn as his birthplace and considered his music painted pictures ... plus spoken word and vocals from Tara Middleton.

"America's nerviest journalist" (Newsweek) trains his satirical eye on Modern Art in this "masterpiece" (The Washington Post) Wolfe's style has never been more dazzling, his wit never more keen. He addresses the scope of Modern Art, from its founding days as Abstract Expressionism through its transformations to Pop, Op, Minimal, and Conceptual. The Painted Word is Tom Wolfe "at his most clever, amusing, and irreverent" (San Francisco Chronicle).

After critiquing—and infuriating—the art world with *The Painted Word*, award-winning author Tom Wolfe shared his less than favorable thoughts about modern architecture in *From Bauhaus to Our Haus*. In this examination of the strange saga of twentieth century architecture, Wolfe takes such European architects as Ludwig Mies van der Rohe, Le Corbusier, and Bauhaus art school founder Walter Gropius to task for their glass and steel box designed buildings that have influenced—and infected—America's cities.

Only yesterday boys and girls spoke of embracing and kissing (necking) as getting to first base. Second base was deep kissing, plus groping and fondling this and that. Third base was oral sex. Home plate was going all the way. That was yesterday. Here in the Year 2000 we can forget about necking. Today's girls and boys have never heard of anything that dainty. Today first base is deep kissing, now known as tonsil hockey, plus groping and fondling this and that. Second base is oral sex. Third base is going all the way. Home plate is being introduced by name. And how rarely our hooked-up boys and girls are introduced by name!—as Tom Wolfe has discovered from a survey of girls' File-o-Fax diaries, to cite but one of *Hooking Up's* displays of his famed reporting prowess. Wolfe ranges from coast to coast chronicling everything from the sexual manners and mores of teenagers... to fundamental changes in the way human beings now regard themselves thanks to the hot new field of genetics and neuroscience. . . to the inner workings of television's magazine-show sting operations. Printed here in its entirety is "Ambush at Fort Bragg," a novella about sting TV in which Wolfe prefigured with eerie accuracy three cases of scandal and betrayal that would soon explode in the press. A second piece of fiction, "U. R. Here," the story of a New York artist who triumphs precisely because of his total lack of talent, gives us a case history preparing us for Wolfe's forecast ("My Three Stooges," "The Invisible Artist") of radical changes about to sweep the arts in America. As an espresso after so much full-bodied twenty-first-century fare, we get a trip to Memory Mall. Reprinted here for the first time are Wolfe's two articles about *The New Yorker* magazine and its editor, William Shawn, which ignited one of the great firestorms of twentieth-century journalism. Wolfe's afterword about it all is in itself a delicious draught of an intoxicating era, the *Twistin' Sixties*. In sum, here is Tom Wolfe at the height of his powers as reporter, novelist, sociologist, memoirist, and—to paraphrase what Balzac called himself—the very secretary of American society in the 21st century.

A big, panoramic story of the new America, as told by our master chronicler of the way we live now. As a police launch speeds across Miami's Biscayne Bay—with officer Nestor Camacho on board—Tom Wolfe is off and running. Into the feverous landscape of the city, he introduces the Cuban mayor, the black police chief, a wanna-go-muckraking young journalist and his Yale-marinated editor; an Anglo sex-

addiction psychiatrist and his Latina nurse by day, loin lock by night-until lately, the love of Nestor's life; a refined, and oh-so-light-skinned young woman from Haiti and her Creole-spouting, black-gang-banger-stylin' little brother; a billionaire porn addict, crack dealers in the 'hoods, "de-skilled" conceptual artists at the Miami Art Basel Fair, "spectators" at the annual Biscayne Bay regatta looking only for that night's orgy, yenta-heavy ex-New Yorkers at an "Active Adult" condo, and a nest of shady Russians. Based on the same sort of detailed, on-scene, high-energy reporting that powered Tom Wolfe's previous bestselling novels, *BACK TO BLOOD* is another brilliant, spot-on, scrupulous, and often hilarious reckoning with our times.

The maestro storyteller and reporter provocatively argues that what we think we know about speech and human evolution is wrong. "A whooping, joy-filled and hyperbolic raid on, of all things, the theory of evolution." (Dwight Garner, *New York Times*) Tom Wolfe, whose legend began in journalism, takes us on an eye-opening journey that is sure to arouse widespread debate. *THE KINGDOM OF SPEECH* is a captivating, paradigm-shifting argument that speech--not evolution--is responsible for humanity's complex societies and achievements. From Alfred Russel Wallace, the Englishman who beat Darwin to the theory of natural selection but later renounced it, and through the controversial work of modern-day anthropologist Daniel Everett, who defies the current wisdom that language is hard-wired in humans, Wolfe examines the solemn, long-faced, laugh-out-loud zig-zags of Darwinism, old and Neo, and finds it irrelevant here in the Kingdom of Speech.

From "America's nerviest journalist" (*Newsweek*)--a breath-taking epic, a magnificent adventure story, and an investigation into the true heroism and courage of the first Americans to conquer space. "Tom Wolfe at his very best" (*The New York Times Book Review*) Millions of words have poured forth about man's trip to the moon, but until now few people have had a sense of the most engrossing side of the adventure; namely, what went on in the minds of the astronauts themselves - in space, on the moon, and even during certain odysseys on earth. It is this, the inner life of the astronauts, that Tom Wolfe describes with his almost uncanny empathetic powers, that made *The Right Stuff* a classic.

"When are the 1970s going to begin?" ran the joke during the Presidential campaign of 1976. With his own patented combination of serious journalism and dazzling comedy, Tom Wolfe met the question head-on in these rollicking essays in *Mauve Gloves and Madmen, Clutter and Vine* -- and even provided the 1970s with its name: "The Me Decade."

The phrase radical chic was coined by Tom Wolfe in 1970 when Leonard Bernstein gave a party for the Black Panthers at his duplex apartment on Park Avenue. That incongruous scene is re-created here in high fidelity as is another meeting ground between militant minorities and the liberal white establishment, in *Radical Chic & Mau-Mauing the Flak Catchers*.

Big men. Big money. Big games. Big libidos. Big trouble. A decade ago, *The Bonfire of the Vanities* defined an era--and established Tom Wolfe as our prime fictional chronicler of America at its most outrageous and alive. This time the setting is Atlanta, Georgia--a racially mixed late-century boomtown full of fresh wealth, avid speculators, and worldly-wise politicians. The protagonist is Charles Croker, once a college football star, now a late-middle-aged Atlanta real-estate entrepreneur turned conglomerate king, whose expansionist ambitions and outsize ego have at last hit up against reality. Charlie has a 28,000-acre quail-shooting plantation, a young and demanding second wife--and a half-empty office tower with a staggering load of debt. When star running back Fareek Fanon--the pride of one of Atlanta's grimmest slums--is accused of raping an Atlanta blueblood's daughter, the city's delicate racial balance is shattered overnight. Networks of illegal Asian immigrants crisscrossing the continent, daily life behind bars, shady real-estate syndicates, cast-off first wives of the corporate elite, the racially charged politics of college sports--Wolfe shows us the disparate worlds of contemporary America with

all the verve, wit, and insight that have made him our most phenomenal, most admired contemporary novelist. *A Man in Full* is a 1998 National Book Award Finalist for Fiction.

To untangle the knot of interlocking meanings of these painted words, logophile and mythologist Phil Cousineau begins each fascinating word entry with his own brief definition. He then fills it in with a tint of etymology and a smattering of quotes that show how the word is used, ending with a list of companion words. The words themselves range from commonplace — like biscuit, a twice-baked cake for Roman soldiers — to loanwords including chaparral, from the Basque shepherds who came to the American West; words from myths, such as hector; metamorphosis words, like silly, which evolved holy to goofy in a mere thousand years; and words well worthy of revival, such as carrytale, a wandering storyteller. Whether old-fangled or brand new, all the words included in *The Painted Word* possess an ineffable quality that makes them luminous.
