The Tragedy of Great Power Politics is a book by the American scholar John Mearsheimer on the subject of international relations theory published by W.W. Norton & Company in 2001. Mearsheimer explains and argues for his theory of "offensive realism" by stating its key assumptions, evolution from early realist theory, and its predictive capability. He readily acknowledges the inherent pessimism of offensive realism and its predictions because his world is one in which conflict between great power

Political Science, History. The terrorist attacks of September 11, 2001, sadly shattered these idyllic illusions, and John Mearsheimer's masterful new book explains why these harmonious visions remain utopian. To Mearsheimer, great power politics are tragic because the anarchy of the international system requires states to seek dominance at one another's expense, dooming even peaceful nations to a relentless power struggle.

Mearsheimer boldly states that great-power rivalry is not over. The major powers still fear each other, and dangerous security competition lurks. This view is built on an "offensive realist" theory of world politics: the deep insecurity generated by the anarchic (hence "tragic") international system leads great powers to act aggressively toward each other, thwarting rivals from gaining power even if such moves risk war.
