~~Alan Le May - Wikipedia~~

Alan LeMay was a prolific writer of screenplays and western novels. Unfortunately, he has been relegated to the ranks of the so-called "pulp western" writers, which is a pity because the man could flat write. *The Unforgiven* and *The Searchers* compare favorably with anything written by Larry McMurtry or Cormac McCarthy, and in some cases are better.

LeMay's straight forward writing style somehow captures like nobody else the intense drama, the suspense, and the fear of life on the frontier in the 1870's. Although written way back in 1957, the story, plot, action, and character conflicts are just as fresh today as they were back then.

Mexican Comancheros, mercenary traders, troops of US cavalry and Texas Rangers add to the vitality of this full-blooded adventure along with a gently underplayed tale of unrequited love. Historically accurate, evocative and well written, Alan Le May's tale of rescue and revenge could hardly fail to become the basis of a classic film.

Although much has been written about the 1950s cult film *The Searchers*, Alan LeMay, the author of the novel upon which the movie is based, has received little attention. This welcome biography tells the engaging story of the career freelance writer who sold his first story at age 19 and never held a permanent job. LeMay gained success in the 1930s writing Westerns and in the 1940s penning scripts for "big outdoor" films but he is best remembered for *Searchers* (1953) and another novel adapted into a popular film, *The Unforgiven* (1957). Sometimes rich but frequently poor, LeMay supported a family with his writing and engaged in a variety of ventures, including cattle ranching, polo playing, flying, and road racing. This narrative of his unconventional life offers an insider's view of Hollywood and conveys the unique stresses of a career in screenwriting.

A collection of western stories that represent the vitality of the frontier.

Josey Wales was the most wanted man in Texas. His wife and child had been lost to pre-civil War destruction and, like Jesse James and other young farmers, he joined the guerrilla soldiers of Missouri--men with no cause but survival and no purpose but revenge. Josey Wales and his Cherokee friend, Lone Watie, set out for the West through the dangerous Camanchemo territory. Hiding by day, traveling by night, they are joined by an Indian woman named Little Moonlight, and rescue an old woman and her granddaughter from their besieged wagon. The five of them travel toward Texas and win through brash and honest violence, a chance for a new way of life.

'[A] vivid, revelatory account of John Ford's 1956 masterpiece.' - The New York Times Book Review

CATTLE WAR Times were tough in Wolf Bench...and they were about to get tougher. Low beef prices had all the cattlemen going hungry, and rumbling bellies led to itchy trigger fingers. Only one man had been able to keep things under rein, and that was John Mason, not only the most powerful cattleman in the area, but the head of the bank to boot. But then Mason was killed. With Mason dead, all bets were off--and everyone knew it. Every spread for miles around was arming themselves for an all-out range war. Boundaries were going to be re-drawn, fences moved and moved back...and men were going to die. Before it all ended there would be a lot of blood spilled on the...WINTER RANGE.
