Weaponized Lies seems to be a natural progression of this line of thought, addressing a cluster of cognitive issues that may, together, constitute most people’s greatest obstacle to effective thinking. In terms of scope, Weaponized Lies could be used as a secondary or possibly even primary textbook for a 100-level class on information analysis, critical thinking, and logic.

~~A Field Guide to Lies - Wikipedia~~ Post

Weaponized Lies is, broadly speaking, an introduction to critical thinking. Far more conversational than an academic book on formal logic, this accessible tome walks the reader through the basic principles of critical thinking, beginning with an introduction to probability and statistics, moving on to linguistic manipulation, and culminating in a brief introduction to the scientific process.
